

Dynamics 365 Business Central for SMB

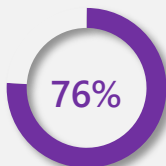

Adapt faster, work smarter, and perform better

As a small or medium-sized business owner, you know the time and money that goes into managing your finance, sales, service, and operations. With the right solution, you could streamline those costs and efforts, freeing your resources to focus on growing your business.

Microsoft Dynamics 365 Business Central for SMB offers a cloud-based business management solution designed for helping you run your business operations. Connect your teams with a single collaborative solution to drive continuous innovation across your organization.

- Operational flexibility
- Optimal performance
- Actionable insights

76% of surveyed CFOs are dissatisfied with cross-functional collaboration to bridge the gap between operational and financial planning.¹

20% of surveyed SMBs will cease operations by 2025 because they cannot pivot fast enough to digitize their operations to meet customer demands²

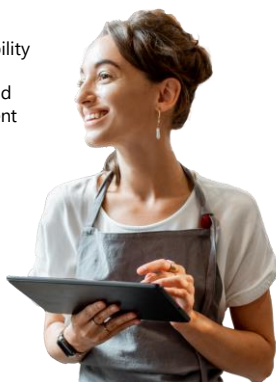

2x likelihood for revenue growth according to surveyed SMBs who are early adopters of technology.³

Embrace the cloud

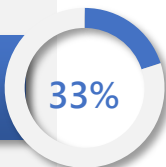

Business Central digitally transforms how people in your organizations work together, no matter where they are. Interoperability with familiar Microsoft 365 apps encourages collaborative and improves productivity.

Other benefits include:

- Improving forecasting
- Increasing financial visibility and performance
- Optimizing inventory and supply chain management

33% surveyed SMBs who as early adopters of technology earned higher revenue.²
