

Extend Business Central

ebs-plus provides localised payment management, email remittance, vendor management, bulk import of journal entries, audit trails and more.

ebs-plus payment management eases the pain of repetitive data entry, and time consuming tasks - reducing manual payment processing, and the potential for errors as a result. Using ebs-plus we take out the hassle out of managing supplier payments, leaving you to do what you do best – manage your business.

Is your business still managing payment processes by:

- Sending hard copy remittances or emails per vendor, which can take hours or days to complete?
- Adding additional data entry on reports to show dependent dimensions correctly?
- Manually entering journals from spreadsheets?
- Searching through large amounts of GST payments to finalise BAS processes?
- Relying on auditors or manual checking of changes to supplier EFT details?

ebs-plus solves the manual processing headache

With ebs-plus, you can immediately solve these issues and improve your processing time dramatically. With Australian localisation of end-to-end AP processes (from vendor payment journal through to uploading ABA files online) ebs-plus delivers a seamless payment management process.

- Intelligent vendor checking enables processing of payments and filters by date so you know what to pay, when.
- Ease of supplier payments (summarised ABA files and suggest payment process, simple payment list report, and sending email remittance in bulk).
- Send vendor remittance via email to multiple vendors in a single process even after posting the payment journal.
- Send customer invoices and statements in bulk via email.
- Choose whether to send invoice and remittances as a separate PDF when sending statements.
- Email remittances directly and keep an audit trail.
- Connect to Ezidebit for enhanced cashflow and collection of payments.
- Vendor Bank Change log – assist with auditor requirements and reduce possible fraud by checking changes to supplier EFT details.
- Dependent dimensions: link dimensions together to save on data entry time.
- Journal Import templates – a fast way to import large amounts of data from spreadsheets. Reducing manual processing and errors via data entry.
- GST Detailed Report – easy see details of all GST related entries to assist when performing BAS process.
- Integration to Payroll Easy to enable a simpler payroll process.
- Report on vendor remittances and AU/NZ statements.
- Automatically assign the current user on new purchase and sales documents.

Spend more time working on your business, not in your business. All future enhancements and additional features of ebs-plus are rolled out to all customers. Fully maintained and supported by Evolution Business Systems as part of your subscription.

By choosing ebs-plus you are guaranteed to save time and money.
